

IV International On line Art Festival "Grad" 2020 – Moja kuća (My house)

Director's Word : "The IV International Art Festival "Grad" is a creative challenge for a new meeting of artists, audiences and the media and the return of urban communication and social closeness and empathy. In addition to presenting a rich cultural and artistic content to the audience, Art Festival "City" invites you to participate and celebrate the art and civilizations of the world that make us nobler while we learn, create and try to better understand the meaning of life. See you at the IV International On line Grad Art Festival." Ibrahim Spahić_

The fourth International On line Art Festival "Grad", held under the motto City - my house, will be a meeting place for painters, writers, architects and other eminent experts and the primary goal of the festival is to present quality content and complement the cultural and artistic scene of Sarajevo. This year, the audience can expect a rich program, a little journey into the past through the vision of art and quality content. What will make this year's "Grad" festival different from previous ones is the maintenance of content on the online platform ZOOM. The application link as well as all other information will soon be published on the website www.sarajevskazima.ba
