

Statement Pomeranian directors of cultural institutions

In the face of the war and the enormous tragedy faced by the Ukrainian people, as directors of Pomeranian art institutions, we do not see the possibility of cooperation with Russian and Belarusian institutions and artists who are directly and indirectly linked to the Putin regime and Russian capital or are financed by them, and do who not strongly condemn the barbaric assault of the Russian Federation on independent Ukraine. The lack of cooperation with these institutions and artists is an expression of our solidarity and great respect for the heroic attitude of Ukrainian society.
